

K Love is a positive non trash radio station that I support monthly and want on the air.If displaced by LPFM, it would be a disservice to the local community with programming we do not need.KLove 106.7 provides a positive influence and an alternative to trash talk programs and music with harsh and vial content. Keep things as is, and let the satellite radio be the choise of others with special needs. EW prefer not advertising alternatives like K-love.
Tom Heck and family fo four.
